

Sustainability and Corporate Social Responsibility

Meeting your corporate social responsibility objectives

As part of our business values and beliefs, we understand the **importance** of being **socially aware** and take **full responsibility** for our actions and services. With over 20 years experience in the industry, our aim is to provide our customers with **sustainable, ethical and innovative recycling solutions** that work for both your business and the environment.

We have recently been awarded for **best corporate responsibility at the best business awards**, we were recognised for making a huge difference to the lives of some the poorest people in the world and making an effort to clean up the environment.

- ✓ Awarded 'Best corporate responsibility'
- ✓ Full environmental compliance with all mobile telephones and laptops
- ✓ Fully accredited WEEE recycling service and reporting
- ✓ Approved Authorised Treatment Facility (AATF)
- ✓ Achieved ISO accreditation for 9001, 14001
- ✓ Complete licensed audit trail
- ✓ Environmentally and financially, sustainable solution
- ✓ Support developing counties worldwide

Sustainability

At **emc europe** sustainability is the driving force for everything we do and underpins every aspect of our service. **Our priority is to recover and reuse mobile phones and laptops** with minimal impact on the environment. Our **sustainable recovery service** allows potentially toxic handsets to be safely removed from the waste chain.

Supporting developing nations and emerging markets

Once devices have gone through our fully, **certified recovery and reuse process** they are dispatched to emerging markets around the globe to be reused over and over again. We are also proud to support developing nations worldwide, where refurbished equipment is used, **improving communities** such as hospitals and farms enhancing quality of life, offering economic possibilities and valuable infrastructure.

Supporting charities

Here at **emc europe** we care about charities and aim to support your business in every way we can. That is why we have created a simple system for you to recycle whilst raising money for charity. This means that you can divert your redundant electronic equipment from landfill and support these fantastic charities at the same time.
