

**Safe Water From
Woman to Woman
With Solvatten**

Annica Triborg SI Sweden

“What a fantastic story”, said Barack Obama.

When he met Solvatten’s inventor, Petra Wadström, in Sweden in 2013, he was the U.S. President.

This is why SI Sweden decided to support Solvatten

- The effects have been carefully measured ever since we began supporting Solvatten in 2012.
- Solvattten contributes to achieving each of the 17 UN sustainable development goals.
- It is easy to convince both individuals and organizations to support our program because the positive effects are so clearly visible.

“Solvatten changed the whole family’s life from the very first day.”

Woman in the village Ihushi, Tanzania

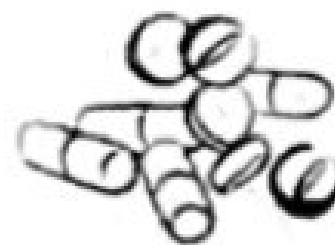

Everything starts with safe water

- Just add sun! Then the UV rays will do the job
- Designed for off-grid household use in the developing world
- Essential during the first years of life to prevent waterborne diseases
- Solvatten has an average lifespan of 7–10 years
- Ten liters of safe and hot water (up to 75 C/167 F) in 2–3 hours

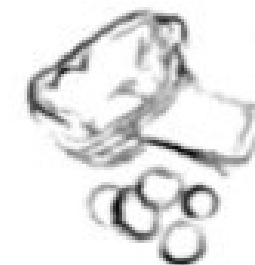

Savings made by ONE family using ONE Solvatten for ONE year!

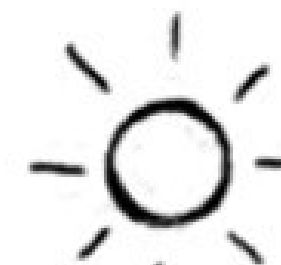

5-6 PEOPLE

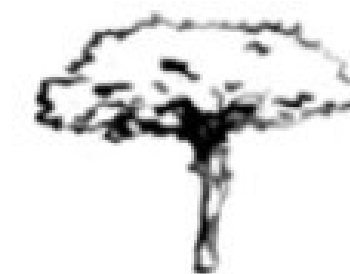

45 FEWER SICK DAYS

200 USD SAVED

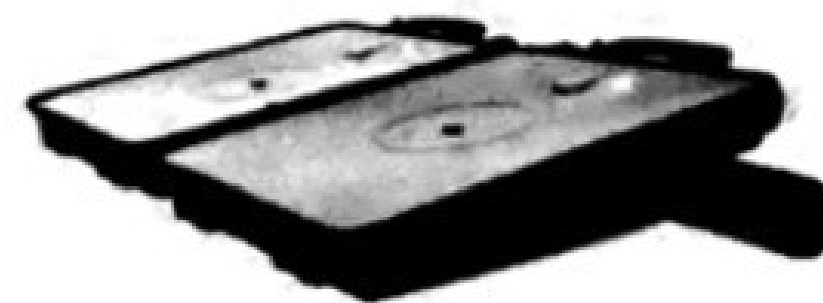

400-450 kWh SOLAR ENERGY ABSORBED

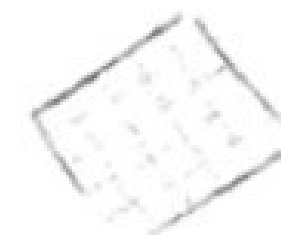

6-10 TREES LEFT STANDING

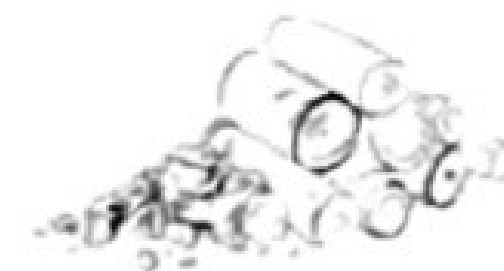

56 WORKDAYS RELEASED

1-2 TONS LESS CO₂ EMISSION

40 m² FOREST SPARED

2 TONS FUELWOOD SPARED

**“My child’s diarrhea
disappeared after
just a few days.”**

Young mother in the village Ihushi, Tanzania

Distributing Solvatten in Uganda January 2026

Our next project!

On our Soroptimist meeting in Krakow, Poland, in October 2025 we met with the Jesca Oredo from Kenya.

Result:
Sending 72 Solvatten to Kenya!
